SERVICE PACKAGES & OFFICIAL RATE SHEET (2026)

1. BACKEND DEVELOPMENT

Basic API Build Focused, well-tested API for single core feature set/MVP (FastAPI/Django, Postgres, JWT).	(2–4 wks)	NGN 250,000 – 400,000
Custom Backend System Multi-service backend with auth, payments (Stripe/Paystack), Redis caching, Celery queues.	(5–8 wks)	NGN 500,000 – 900,000
Enterprise Backend Architecture High-throughput system design, DB read/write replicas, Kafka/RabbitMQ, Prometheus telemetry.	(9–12+ wks)	NGN 1,100,000 – 2,000,000

2. AI INTEGRATION & LLM ORCHESTRATION

AI Feature Add-on Bolt an AI capability onto an existing product (OpenAI/Anthropic/Groq APIs, structured JSON).	(2–3 wks)	NGN 220,000 – 400,000
AI-Powered Application End-to-end AI application (RAG, Pinecone vector search, LangChain/LlamaIndex, confidence scoring).	(4–7 wks)	NGN 550,000 – 1,000,000
Advanced AI System Multi-agent pipelines (LangGraph), self-hosted open weights (vLLM/ROCm), eval harnesses.	(6–10+ wks)	NGN 1,200,000 – 2,300,000

3. DEVOPS & INFRASTRUCTURE

Deployment Setup Docker containerization, GCP Cloud Run / AWS EC2 deployment, TLS/SSL, automated health checks.	(1–2 wks)	NGN 140,000 – 250,000
CI/CD + Cloud Infrastructure GitHub Actions CI/CD with automated test matrix, blue-green deploys, container registry & secrets.	(2–4 wks)	NGN 330,000 – 600,000
Scalable Infrastructure Terraform IaC, Kubernetes (EKS/GKE), Horizontal Pod Autoscaling, multi-AZ DB replicas, PgBouncer.	(4–6 wks)	NGN 700,000 – 1,400,000

4. FULL-STACK + AI + DEVOPS BUNDLES

Starter Bundle End-to-end build for early products: custom backend + core AI feature + CI/CD cloud deployment.	(4–6 wks)	NGN 850,000 – 1,400,000
Growth Bundle Full-stack multi-service backend + advanced RAG AI pipeline + Terraform IaC + telemetry.	(8–12 wks)	NGN 1,700,000 – 2,800,000
Enterprise Bundle Distributed event-driven architecture, autonomous multi-agent AI system, multi-region cloud cluster.	(12+ wks)	NGN 3,500,000 and up

5. HOURLY CONSULTING & RETAINERS

Ad-hoc Consulting Pay-as-you-go technical advisory, architecture audits, DB query & indexing troubleshooting.	(Hourly)	NGN 12,000 – 18,000 / hr
Maintenance Retainer Continuous upkeep, security updates, dependency patches, uptime auditing, priority bug fixes.	(Monthly)	NGN 160,000 – 300,000 / mo
Growth Retainer Dedicated weekly sprint hours for feature development, capacity scaling, and direct Slack support.	(Monthly)	NGN 350,000 – 650,000 / mo

ENGAGEMENT TERMS & NOTES

- Scope & Pricing: Final prices depend on agreed technical scope. Flexible discovery call available prior to kickoff.
- Negotiation: Favorable terms and discounts available for multi-month retainers or multi-phase enterprise builds.
- Billing Schedule: 50% deposit upon contract signing; balance due upon delivery or sprint milestone acceptance.
- Third-Party Costs: Cloud hosting (AWS, GCP), LLM token consumption (OpenAI, Anthropic), and domain registrations billed separately.
